Ideal for students, people on the move, or anyone who needs to make a great impression.

What could be better than a gift that keeps on giving?
And makes the person you give it to look very good indeed?
If they travel, if they write, if looking good means
looking good in letters, reports, or essays,
the Canon Typestar 2 personal electronic typewriter
could make your gift just perfect.

So simple to use.

Try it yourself, and you'll know in a flash that no typewriter is simpler to use. The keyboard layout is clean and simple, with function keys that are clearly marked and placed just where you want them to be. The step-sculptured keys keep fingers from slipping. The 16-character, 1-line, liquid crystal display lets you catch mistakes before they're printed.

So light and compact.

The Typestar 2 weighs only 5 pounds. But it's ready for use anywhere, with all the special characters needed to type in more than five languages. Plus, automatic underlining and centering, expanded as well as normal printing, and three types of shading when words need special emphasis.

Canon quality from start to finish.

You can see it in line after line of beautifully crisp, clear characters. You can hear it, too, in the whisper-quiet printing which lets you type without disturbing your thoughts. And Canon's a name you can count on, for the simple, quiet quality that makes the Typestar 2 a pleasure to give, a joy to receive.

Specifications
